Reflection Sheet

Exit Ticket and answer to Question Starter: Between \$41,498 to \$123,874

1. Why do you think these figures vary so much state by state?
2. Can you suggest other ways to measure the middle class other than by income?
3. Do you think the size of the middle class has changed over time? Why or why not?
4. Do you think that people earning the same income can have very different lifestyles? Explain.

Answer to Question Starter
