

21st Century Skills

Read the article found at this [link](#) or on the PDF included with this lesson. Use the information to create a visual explaining what the 21st century skills are. Be creative and make the item colorful and interesting. Presume that the person looking at it knows NOTHING about 21st century skills - you will need to explain!

1. Create a google slides presentation. Be creative and make it organized, look nice and thoroughly explain the topics. Use images as much as possible! Afterall, pictures are worth a 1000 words!
2. Use a main heading and subheadings where appropriate. Make the stand out from the rest! Explain what the skills are, why are they important to students your age?
 - a. Be sure to put the 12 skills under their heading of Learning, Literacy, or Life skills.
3. DO NOT copy and paste explanations - put them in your own words. If you cannot paraphrase then you don't really understand, and if you don't then the people looking at your visual won't either.
4. Turn into your teacher
