Stock Scenery: Building a Flat

May 7

Lesson: May 7

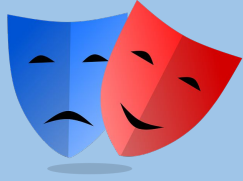

Objective/Learning Target: The student will built a scale model flat with specific measurements.

Stock Scenery: Building a Flat

Let's Get Started / Warm Up Activities:

When you were little did you ever play with legos or build models?

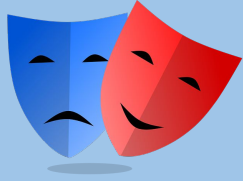

Lesson: Building a Scale Model of a Flat

Today, you will use your scale drawing of a flat to build a scale model.

A scale model is most generally a physical representation of an object that maintains accurate relationships between all important aspects of the model.

Practice

1. Today you will use $\frac{1}{2}'' = 1'$ scale to build a model of a flat.
2. First, gather supplies. Below are suggestions, but you can get creative with that you have!
3. Building Material Options:
 - a. Paper, Notecards, Glue, Tape, Scissors
 - b. Legos, paper, and tape
 - c. Cardboard Box, Glue, Tape, Scissors
 - d. Popsicle Sticks, Glue, Tape, Scissors
4. Build a scale model of a flat. Then, label each of the parts of the flat.
