Introduction to Design & Production
Sound Design
Ms. Hayes, Mr. Meyer, Ms. Yung
April 20, 2020

Learning Objective:

The students will explore the world of sound design and the role of the sound designer.

Bell Ringer:

Using only your voice, create three sound effects.

Lesson Steps:

Sound Design is a very important and changing art form in the Theatre. Today, you will use videos as an introduction to Sound Design.

Practice:

 The following videos will introduce and explain about the world of sound design and the responsibilities of the sound designer.

1. Watch the 2 short videos on sound design:
   Designing Sound for Theatre

   The Magic of Making Sound

2. Answer the following questions:
   A. What do you find interesting about the field of sound design?

   B. How does a sound designer collaborate with other designers on a show?

   C. What is the difference between a sound engineer and a sound designer?
