

Social and Online Media Virtual Learning

Grades 9-12/Digital Portfolios - Day 5 of 5

May 1, 2020

9-12/Social and Online Media
Lesson: *May 1, 2020*

Objective/Learning Target:
Students Will Create a Good Digital Portfolio

Let's Get Started:

Log onto your Digital Portfolio:

1. How do you feel about the work you accomplished yesterday?
2. What do you need to accomplish today to finish your portfolio?

Practice: Making Your Digital Portfolio

Continue to work on your Digital Portfolio. Today is Finishing Day.

1. Finish anything from yesterday's list you did not get done.
2. Finish adding or editing anything else needed to finish your portfolio.
3. Add any examples of work that demonstrate your great ability. It can be writing, photos, design, woodshop creations, etc. Anything that highlights you.
4. Wrap up your work as best as possible.
5. Share with a friend or one other person and get their thoughts about what you have created. Have them give input on how to make it even better.

Some closing reminders:

1. Always save/publish. We want to make sure you don't lose your hard work.
2. If you did not get completely done, that is okay. This is a continually expanding site. It grows as you do. And, nobody sees it until you are ready and share it.
3. Your Intro to Social and Online Media teachers would love to see what you have accomplished and help you along the way. Please share your creations with us.
