Computer Networking Virtual Learning

# Network Security - 3.4 - Manageable Network Plan

May 6, 2020

Lesson: <mark>5/6/2020</mark>

**Objective/Learning Target:**

- What is a manageable network plan
- What devices are most important when designing your network map

- When you develop a manageable network plan, what should you keep in mind as you prepare to document your network?
- Which elements of the network are identified when you map your network?
- What steps should you perform to protect your network?
- How can you ensure that all of the devices in the network have access, but still maintain security?
- What must you keep in mind to control user access and ensure network security?

# Learning Tasks

- Navigate to TestOut.com & log on using your credentials
- Navigate to Security Pro Chapter 3 - Policies, Procedures, & Awareness, Section 4 - Manageable Network Plan
- Review Vocabulary words for 3.4 before starting into Section
- Read Fact Sheets located in sections 3.4.3
- Watch videos located in sections 3.4.1, 3.4.2
- Answer/Review Practice Questions located in section 3.4.4

# Time Breakdown

Videos = 16 Minutes
Fact Sheets = 5 minutes
Practice Questions = 5  minutes
**Total Time = 26 minutes**
