|------------|----------|
| ● Llama | ● Car |
| ● Trees | ● Water |
| ● Mountain | ● Sky |
| ● Grass | ● Hills |
| ● Leaves | ● People |

**Would you like to
visit Kenya or Peru?**

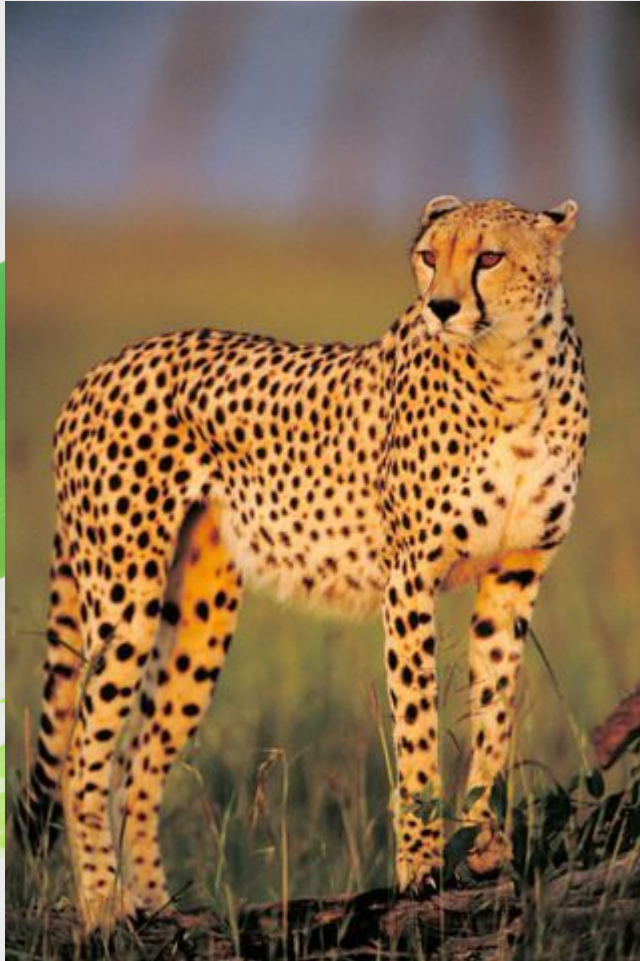

**Let's read about
Kenya and Peru!**

Kenya from Newsela

Kenya is on the Indian Ocean. The land is low and flat along the coast. Mountains rise in the country's center. Most Kenyans live in the highlands. This is where Nairobi is located. Nairobi is the capital of the country.

People visit Kenya from around the world. Most come to see the wildlife. They look for cheetahs and lions. They may also see rhinos and zebras. Kenya has more than 50 nature reserves. The animals are protected in these wild areas.

Much of the country is covered in grassland. There are deserts, swamps and forests, too.

Peru from Newsela

Peru is a large country. It is located in South America. Peru has many different types of land. There are mountains and deserts. There are also beaches and rainforests.

The Andes are a mountain range. They are very tall. They run from the bottom to the top of Peru. Long ago, ancient people lived here. Some built pyramids and farming systems.

The Amazon is a thick jungle. It covers almost half of Peru. Many different plants and animals live here. Some live nowhere else on Earth. Native tribes live here, too. Some of these people may have never seen the outside world.
