Tech Assessment

April 28, 2020

ECPI

Lesson: April 28. 2020

Objective: Student will develop an assessment that can be completed with classroom technology.

Standard: 2.4.2

Activity & Directions: Find a website that involves assessing students in some way (Ex. Quizlet, Answergarden or Google Forms). You will then use it to create your own short assessment for a class and subject of your choice. Put the link to your assessment on a Google Doc and explain how you would use it in your classroom and why it would be helpful in understanding what or how much the students have learned.
