School Age Children at Home

May 8, 2020

Lesson: May 8, 2020

Objective: Students will be able to create rules for a school age child to stay at home by themselves.

Learning Target: 15.1.2

How to do assignments:

If you created a google doc last week, continue on it. If you did not, then:

- Create a google doc.
- Put today's date and the lesson topic
- Put the questions and answers under that date. (You may need to copy the questions from the lesson and paste them into your doc)

When children are in their school age years, they usually begin staying at home by themselves.

You are going to pretend that you are the parent of a school age child who will be staying at home for the first time.

You will create a list of rules that they cannot do while they are at home by themselves. What to include is on the next slide. Use your google doc. to record your list.

Age of Child

6-8 rules your child must follow to stay home by themselves

Next to each rule, put in parenthesis the danger that it relates to.

Example:

-Can not use the stove or oven. (Fire/burns)
