

**Human Growth and Development**

# **Developmental Research**

**April 30, 2020**

Lesson: April 30, 2020

**Objective:** Students will be able to research developmental areas of a preschooler.

**Learning Target:** 12.1.1

## How to do assignments:

If you created a google doc last week, continue on it. If you did not, then:

- Create a google doc.
- Put today's date and the lesson topic
- Put the questions and answers under that date. (You may need to copy the questions from the lesson and paste them into your doc)

This assignment will be a two-part assignment for today and tomorrow.

You will be choosing an age (2, 3, 4) to research specific developmental questions. Today, you will focus on physical and intellectual development questions.

Answer the questions on the next slides on your google doc. Make sure to put the age you chose at the top of your questions.

## Physical Development Questions

- What can this age of child do as far as fine/gross motor skills are concerned?
  - What is their average size?
- What activities do children this age children enjoy engaging in?
  - What is the role of nutrition in early childhood?
    - Do they still take naps?

## Intellectual Development Questions

- How do preschoolers learn best?
- What types of learning games can parents/teachers do to help encourage learning?
- What role does reading play in the learning process?
- What is the imagination of a preschooler like?
