

Human Growth and Development

Creating a Daily Schedule

April 29, 2020

Lesson: April 29, 2020

Objective: Students will be able to create a schedule for a child that includes their needs and development.

Learning Target: 2.1.1

How to do assignments:

If you created a google doc last week, continue on it. If you did not, then:

- Create a google doc.
- Put today's date and the lesson topic
- Put the questions and answers under that date. (You may need to copy the questions from the lesson and paste them into your doc)

Since we are staying home right now, parents have their children at home with them.

Using your knowledge of development and ages, you will be planning a schedule for a parent at this time.

The following slide has the required tasks to include in the schedule. Use the internet to help you if needed.

Age of Child

8:00am-8:00pm

Tasks to include: breakfast, lunch, dinner, snacks, nap,
bedtime, bath

Figure out how long each task takes and what order these tasks should go in. Add other activities in to make up your day.
