

**Human Growth and Development**

# **School Age Children and Safety**

**May 6, 2020**

Lesson: May 6, 2020

**Objective:** Students will be able to investigate safety concerns for school age children.

**Learning Target:** 15.1.2

## How to do assignments:

If you created a google doc last week, continue on it. If you did not, then:

- Create a google doc.
- Put today's date and the lesson topic
- Put the questions and answers under that date. (You may need to copy the questions from the lesson and paste them into your doc)

The rest of the week will be about safety for school age children.

Use the following website to investigate safety concerns for school age children and answer the questions on the next slide.

[School Age Safety](#)

Use your google doc to answer your questions.

1. What are the biggest risks for school age children?
2. From birth to age 18, list the 5 leading risks for accidental deaths.
3. List 3 of the groups of children who are at higher risk for accidental injury or death.
4. Look at the list of safety topics. Pick 5 that you would like to learn more about and list them on your doc.
