

FACS Virtual Learning

HS/Interior Design Transformation 1/2

April 16, 2020

High School/Interior Design 1/2
Lesson: [Thursday April 16th]

Objective/Learning Target:

11.2.3 Analyze the effects that the principles and elements of design have on aesthetics and function

Before and after Transformations

A lot of the shows on HGTV take rooms or complete houses and make transformations. I think the first show that started this was Extreme makeover. (Which is coming back to TV.) Have you ever wondered how the decorators make it look so good?

The decorators themselves have the knowledge that we have studied. They look at the color and principles and elements of design and decided what they can do to transform the current space.

For the next two days I want you to do the same.

Before and After Design Transformations:

Directions:

Look at the before/after pictures on the following website

<https://www.decorist.com/blog/our-best-before-after-transformations/> and choose two designs you love.

Identify the elements/principles that the designer used well to create the final design.

Today's assignment is for you to fill out one of the following pages thinking about the different colors that designer used in the transformation.

Remember the principles for design and the elements of design and think about how the designer use them differently.

Complete the following for each room.

Review:

Elements - Color, Line, Space, Texture, Form/Shape

Principle - Balance, Emphasis, Proportion/Scale, Rhythm, Unity, Variety

1. Name of room:
2. What type of style does this design represent?

Complete the following for each room.

Review:

Elements - Color, Line, Space, Texture, Form/Shape

Principle - Balance, Emphasis, Proportion/Scale, Rhythm, Unity, Variety

1. **What 3 elements stand out to you and how were they used well?**
 - a. Element -
 - i. Explanation:
 - b. Element -
 - i. Explanation:
 - c. Element -
 - i. Explanation:

Complete the following for each room.
