# **High School/Interior Design**

**May 6, 2020**

High School/Interior Design  
Lesson: [May 6, 2020]

**Objective/Learning Target:**

**11.2 Evaluate housing design concepts and theories, including sustainability and universal design, in relations to available resources and options.**

**11.2.3 Analyze the effects that the principles and elements of design have on aesthetics and function.**

What does upcycle mean?!

**Upcycling** is when you reuse (discarded objects or material) in such a way as to create a product of a higher quality or value than the original.

## Step Two: Get Upcycling

Using the pictures found on Pinterest, select one project to complete. Take pictures along the way, you will need to upload these to the slide as well

## Step Three: Compile Your Slideshow

Use the [template](#) I have created:

1. Inspirations
2. Show and image of the original item you are upcycling.
3. Show pictures of the process (steps along the way) with directions. What did you do?
4. Show a before and after picture side by side.
5. Record your presentation- In your presentation describe why you did this project and how you will use the item you upcycled.

Reminder:

If you want feedback of your work make sure it is properly labeled and then put into Google Classroom
