Interior Design

Standard: 11.2

Objective: Using the information you observed from watching the home show apply that information in you own home.

Lesson: Wednesday April 9

Bellwork:

Review: What are the five elements of design?

Example: Colors and Elements that define me.

When I sit back and look at my clothes and items in my room the things I observe are: I have a lot of neutral colors. There are a splash of red. My pants are mostly black, green and navy blue. I have soft clothes. I like soft things in my room. etc

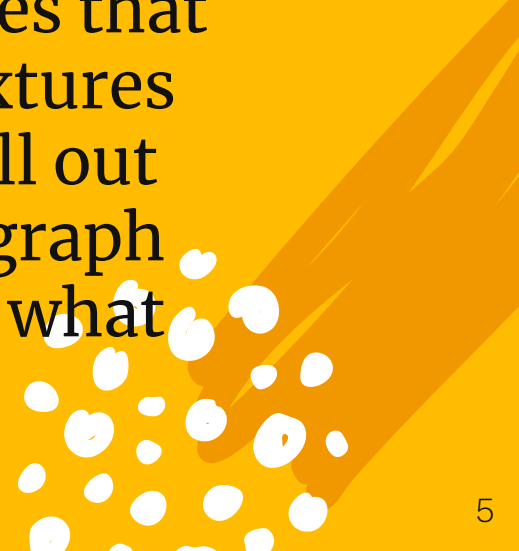

Activity

Activity:

Take some time and sit in your room and closet. Observe the colors and textures that define you. Make a chart of color, textures and anything else that stands out. Fill out the list then right a descriptive paragraph about what defines you according to what you observe.

Reminder:

If you want feedback of your work make sure it is properly labeled and then put into Google Classroom.
