More Animals and a Little Culture

Below is a traditional French Canadian song. You've probably heard it, but did you know what the words really mean?

Alouette Background

“Alouette” was created hundreds of years ago by French fur traders to keep time as they rowed their canoes on Canadian rivers.

Why is this a good song for that purpose?

Why do you think the song has remained popular?

How to Make Nouns Plural

In French, a noun is plural if an extra “s” or “x” is added to the end. (The “x” is usually used for words ending in “eau,” “eu,” and “ou.”)

Examples

| Singular | Plural |
|----------|---------------|
| La vache | => Les vaches |

| | |
|----------|----------------|
| L'oiseau | => Les oiseaux |
|----------|----------------|

Further Explanation

If a noun ends in an “s,” “x,” or “z,” you don’t need to add another “s” or “x.”

Examples:

La souris = Les souris

Le nez = Les nez

What is a “souris?”

What is a “nez?”

Practice

Change the following from singular to plural.
Example: Le chien => Les chiens

1. Le cochon _____

2. L'oiseau _____

3. La souris _____

4. Le chat _____

5. Le hibou _____
