Un message de ta prof

Coucou!

Aujourd'hui on va continuer avec le corps et la santé. Vous allez pouvoir décrire les maladies, les blessures, etc. Bon courage!

A plus tard,
Mme Prunte

Today's Checklist

Objective: Students will be able to communicate about their body, symptoms and general health.

- [Pratiquons](#)

Bellwork

Pour chaque personne, donne des symptômes typiques. Ex: Jacques a la grippe. Il a de la fièvre, une toux, et il est fatigué.

1. Chloë a un rhume.
2. Patrique et son fils ont COVID-19.
3. Jérôme est déprimé (depressed).
4. Tu t'es cassée la jambe.

Des Conseils

Remember the advice the doctor gave in the dialog yesterday? Like in English, many times your advice for health and wellness will be commands and use common verbs...

Prenez de l'aspirine (take some aspirin)

Buvez de l'eau (drink water)

Reposez-vous bien (relax)

Click [here](#) to study some expressions of advice for friends and family who is sick. Then, give some recommendations to these scenarios.

1. Monique tousse beaucoup.
2. Nous avons le nez qui coule.
3. Zoë a mal à la gorge.
4. Elles se sont foulées la cheville.

Match each piece of advice with the appropriate image:

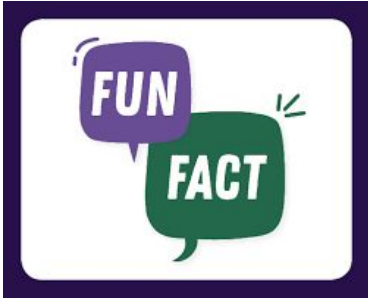

Allez à l'hôpital! Prenez ces comprimés. Ne mangez rien!

Prenez un médicament pour les rhumes. Restez au lit!

Buvez beaucoup d'eau! Ne marchez pas!

Chez le médecin

You are going to spend the next two days creating a dialog at the doctor's office. Refer to this [rubric](#) for all the details.

When you go to “la pharmacie” in France, it is strictly a pharmacy, with health and beauty products, but nothing else. In order to obtain standard medicine we can purchase from a shelf in the US, you must explain your symptoms to the pharmacist and they will sell you the appropriate medication according to your symptoms.

Activités optionnelles

These activities are NOT required, but are great practice to keep your brain growing French. You can choose as many or as few as you want.
