Lesson: **May 20**

Objective/Learning Target:

Students will research the cost of owning a vehicle and determine what kind and how many vehicles they will own.

Success Starter

Think about your family, how many vehicles do your parents have? Why do they have that many? Would it be beneficial if they had more or less vehicles? Why do they have the kind of vehicle that they have?

All of these are probably questions you have not thought about before but for your parents the answers to these questions are largely determined by their budget.

Lesson

For this section of your budget project you will be focusing on vehicles and the cost associated with them. Complete the following google doc:

Exit Ticket

If you had \$500 extra in your budget each month how would that have changed your vehicle situation?
