LESSON GOALS

- This is an enrichment lesson that is designed to meet these goals...
- -practice identifying key signs and symptoms
- -practice using medical vocabulary
- -practice making observations and inferences in a medical context

WHERE ARE WE GOING?

- 1) We will watch a short video case study on youtube.
- 2) To practice with our key skills, we will do some practice questions (not a quiz) that will help you see what you are doing well on, as well as what you need a little more practice.
