

Engineering Virtual Learning

HS Machine Drafting

Design Lesson #20

May 1, 2020

Objective/Learning Target:
Students will explore
Computer Aided Drafting.

Getting Started:

Watch this videos about
Computer Aided Drafting.

https://www.youtube.com/watch?v=JPeWv94x_dQ

https://www.youtube.com/watch?v=mcwIMsh_g3o

Answer the following questions in your
engineers notebook or on notebook paper.
(watch 12 minutes of video for answers)

How did CAD go back to 1861?

When was the first computer invented?

When was CAD first introduced?

In what year did the first IBM desktop get released and Mr. Leutzinger graduate from High School?

Do you think CAD drafting better for society?

(Answer in your engineers notebook)
