

Engineering Virtual Learning

HS Mechanical Drafting Lesson #34

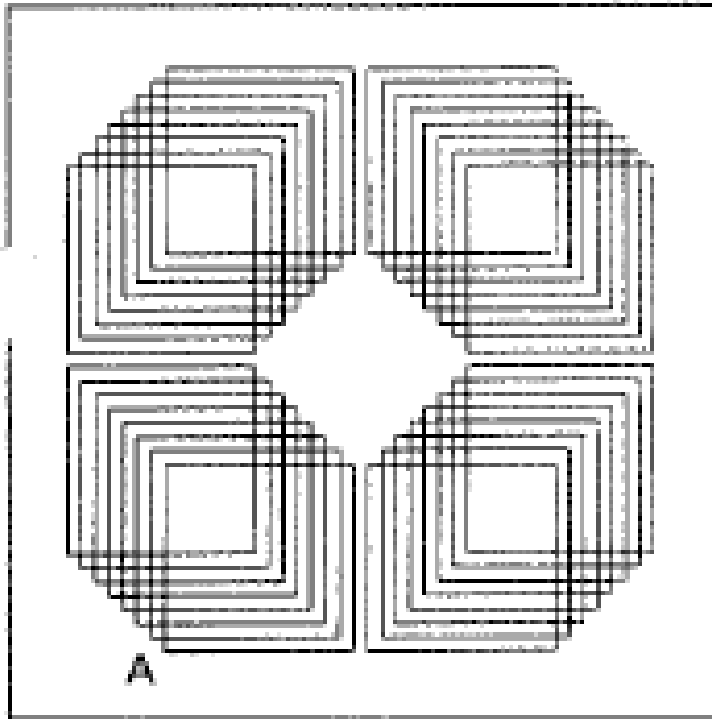

May 21, 2020

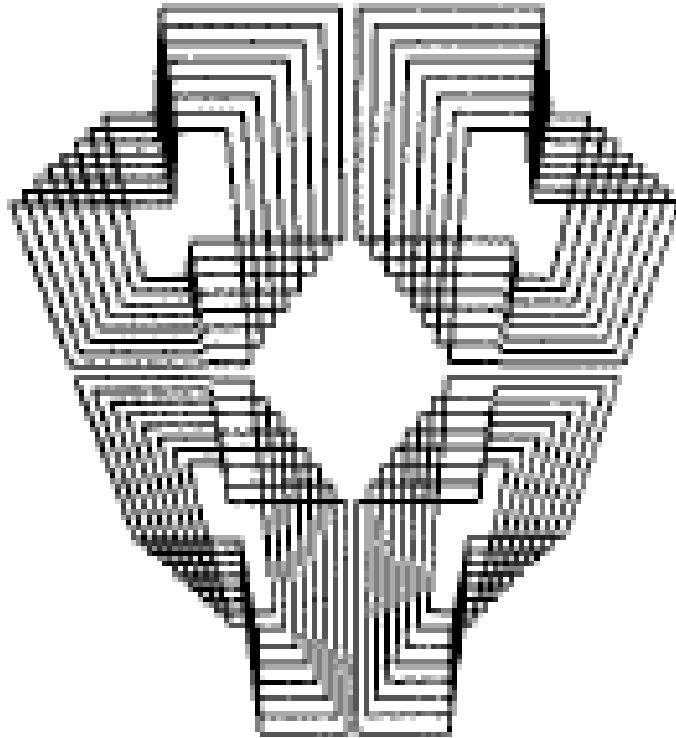

Objective/Learning Target:
Students will Utilize Drawing Skills
in Sketching Geometric Objects.

Learning Practice: Geometric Concept Sketching

Use your engineers notebook or the Graph Paper printed from the resources link to recreate the following objects:

Using a ruler, develop
36 individual
2" squares that are
1/8" apart to create
this design.

Using what you learned in the previous sketch, develop a plan to draw this object
