

Intro to MPI Physics Enrichment Lessons

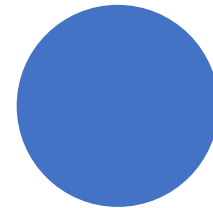

MPI Physics 240 (C Section)
and Physics 210 (A&D Section)

Dr. Clothier

Independence MO School
District

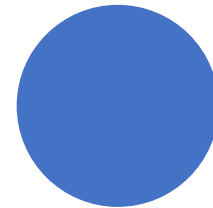

- Okay, honestly this isn't much of a lesson. It's just a video explaining how the lessons are going to be set up, and how to use them. I felt that was necessary before starting onto the actual content.

Introduction to MPI Physics Lessons

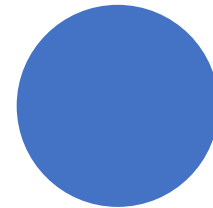

- Basically, I'm going to make videos going over some topic, and post them on YouTube. The videos will discuss the topic, and give one or two worked out examples. I'll then give you a problem or two to try on your own. I will make a separate video showing the solution to that problem. Easy peasy!

Introduction to MPI Physics Lessons

- I will also write out all problems as separate slides, so you can work on them at your leisure
- Here's a link to the video. Please savor the high production values.
