GAP is Total Loss Protection... and then some

The moment you drive your vehicle off of the lot, it depreciates about 20% on average. And you can count on roughly a 15% decline in value each year for the next four years.

If your vehicle is stolen or damaged and deemed a total loss, you are responsible to pay the difference between what you owe and what your insurance company says your vehicle is worth.

GAP can help cover the difference and potentially save you thousands of dollars.

USED CAR TRADE-IN TIPS

When shopping with a trade-in, it is important to remember a few key points to ensure you get the best price for your used automobile.

1. Do not disclose that a trade is pending until you have negotiated the price of the vehicle you are purchasing, this will allow you to get the best deal for both your trade and purchase.
2. Know the values of your trade and purchase so you can be ready to negotiate the best deal. This information is available at kbb.com and nada.com. When evaluating your trade be honest about the condition to have a true idea of the value.
3. When trying to obtain top dollar for your trade make sure and clean the automobile thoroughly so that it presents well.

The credit union staff is always available to help answer any questions. You can also get pre-approved for your loan so you know what you qualify for before you buy.
