## Kindergarten Addition April 6, 2020

Click here to hear a teacher go through the lesson with you.

# Kindergarten Math <br> Lesson: April 6, 2020 

## Learning Target:

Students will be able to represent addition within 10.

Background: This is a review lesson from our Addition Unit

- Students learn to use objects to represent addition.
- Students learn to use pictures to represent addition.
- Students learn to use equations to represent addition.

## Let's Get Started:

Watch Videos:

1. ISD Kindergarten Math Lesson 11
2. Counting Song
3. Brain Pop Jr: Basic Adding Video

## Practice \#1:

How many objects do you see?
How many red legos do you see?

- How many blue legos do you see?

## Practice \#2:

Think back to the video.

- We can add by using objects.

How many objects do you see?

## Practice \#3:

How many objects do you see?
Think back to the video.

- We can add using pictures.

## Practice on your own: Addition Practice!

Find five objects in your house. Can you create an addition problem?

1. Show your addition problem with your objects.
2. Can you show it in the ten frame and number bond?
3. Draw a picture to show your addition problem.
4. Can you write the equation?

## Practice:

Complete this page in your packet.

Name $\qquad$
Six Ways to Make 5
Use the colored squares to show all the combinations you can use to make 5 . Fill in the number sentence to show your combinations.

## MORE Practice on your own:

Go to this website:
Starfall: Addition Machine

1. Click the white triangle to begin.
2. Click on the green ON button.

## Self Check:

Go tell someone in your home your answers.

1. Was this lesson?
$\square$ easy,
$\square$ just right
$\square$ hard
2. See if you can use objects around your house to come up with your addition problems.
