Kindergarten Math
Lesson: April 8, 2020

Learning Target:

Students will be able to represent addition within 10.

Background: This is a review lesson from our Addition Unit

- Students learn to use objects to represent addition.
- Students learn to use pictures to represent addition.
- Students learn to use equations to represent addition.

Let's Get Started:

Watch Videos:

1. [ISD Kindergarten Math Lesson 13](#)
2. [Counting to 100 Challenge Song](#)
3. [I Can Show the Number 7](#)

Practice #1:

How many objects do you see?

- How many pennies do you see ?
- What groups do you see?

Practice #2:

How many objects do you see?

- How many pennies do you see ?
- What groups do you see?

Practice #3:

How many objects do you see?

I have 5 yellow dots
and 2 red dots. How
many all together?

Practice #4:

How many objects do you see?

We can write an equation.

5

How many objects do you see?

We can count on when see an equation.

$$5 + 2$$

How many objects do you see?

We can count on when see an equation.

$$5 + 2 =$$

How many objects do you see?

We can count on when see an equation.

$$5 + 2 = 7$$

Practice on your own: Addition Practice!

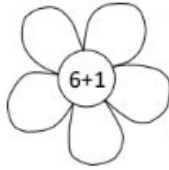

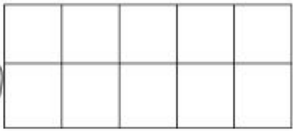

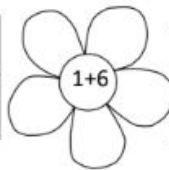

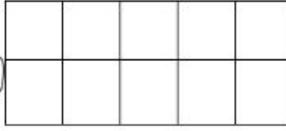

Find seven objects in your house. Can you create an addition problem?

1. Show your addition problem with your objects.
2. Can you show it in the ten frame and number bond?
3. Draw a picture to show your addition problem.
4. Can you write the equation?

Practice:

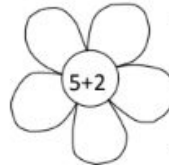

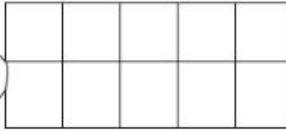

Complete this page in your packet.

Use 2 different colors in the ten frame to build the equation. Write the equation under the ten frame.

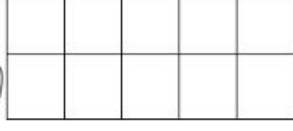

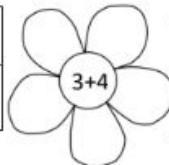

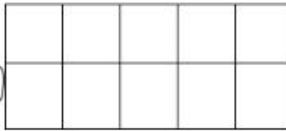

_____ + _____ = _____

_____ + _____ = _____

_____ + _____ = _____

_____ + _____ = _____

_____ + _____ = _____

_____ + _____ = _____
