

Transition Cooking Pizza Rolls

Lesson: April 20th, 2020

Learning Target:

Students will learn how to make a basic meal.

Background: This is a review lesson from daily living class

- Students learned how to use an oven at the beginning of the year.
- Students learned about following written directions throughout the year

Let's Get Started:

Watch Videos:

1. [How to make Pizza Rolls...from a professional](#)
2. [How to cook in an oven](#)

Practice #1:

Where can we find the directions?

HINT: You want to find the temperature to preheat your oven too

On the package there will be directions for how to cook the pizza rolls...what do we do 1st?

Practice #2:

What is the 1st step listed?

Remember to
look at the
directions for
the correct
temperature

What temperature do we need to preheat your oven too?

Practice #3:

Now that the oven is preheating, what do we do next?

If they're touching...they won't cook all the way!
Make sure they have space between them.

Practice #4:

Once they're in the oven, then what?

The instructions said the need to cook for 13 - 15 minutes. What do we need to do with our timer?

Practice #5:

When the timer goes off...ask an adult to help you remove your cooking sheet from the oven (or use oven mitts...but be VERY careful! They're HOT!!!!)

Don't forget! They'll need to cool before you eat them!!!

Don't forget to turn off the oven when you are done.
