

Math Calculation Virtual Learning

**Sped Programs- 2 Digit
Subtraction**

May 1, 2020

Sped Program Math
Lesson: May 1, 2020

Learning Target:

Students will calculate two digit subtraction problems.

Background: This is a review lesson from Math

- Students learn to do 1-digit subtraction in first quarter.
- Students learn to do 2x1 digit subtraction in 2nd quarter.
- Students learn to do 2x2 digit subtraction in 3rd quarter.
- Students learn to do 3 digit subtraction in 4th quarter.

Let's Get Started:

Watch Videos:

1. [2-Digit Subtraction Song](#)
2. [How to do 2-digit Subtraction with Regrouping](#)

Practice #1:

Solve this 2-digit subtraction problem.

Next, subtract 6 - 4. This will equal 2.

$$\begin{array}{r} 6 \\ \cancel{7}1 \\ - 49 \\ \hline 22 \end{array}$$

First, Since 1 is smaller than 9 we need to regroup 10 from the 70 in the tens place. This gives us $11 - 9 = 2$

So, your answer is **22**.

Practice #2:

Solve this 2-digit subtraction problem.

Next, subtract
- 5. This will
equal 0.

$$\begin{array}{r} 5 \\ \cancel{6}6 \\ - 59 \\ \hline 07 \end{array}$$

First, Since 6 is
smaller than 9 we
need to regroup 10
from the 60 in the tens
place. This gives us
 $16 - 9 = 7$

So, your answer is 7.

Practice #3:

Solve this 2-digit subtraction problem.

Next, subtract 1
- 1. This will
equal 0.

$$\begin{array}{r} \overset{1}{\cancel{2}}6 \\ - 19 \\ \hline \end{array}$$

First, Since 6 is
smaller than 9 we
need to regroup 10
from the 20 in the tens
place. This gives us
 $16 - 9 = 7$

07

So, your answer is **7**.

Practice on your own:

Go to this website:

[Splash Learn](https://www.splashlearn.com)

1. Scroll Down and Find the 2 digit - 2 Digit with regrouping Game, then click the orange “play now” button.
2. Use the Model to solve the subtraction problem.
3. Drag the numbers to make the correct answer.

2 Digit - 2 Digit with Regrouping
Subtract a 2 digit number from another 2 digit number with regrouping (decompose the tens as ones to subtract).
Covers Common Core Curriculum 2.NBT.5

2 Digit - 1 Digit with Regrouping
Subtract a 1 digit number from another 2 digit number with regrouping (decompose the tens as ones to subtract).
Covers Common Core Curriculum 2.NBT.5

Subtract the tens and ones to find the difference.

	Tens	Ones
	4	2
-	2	5

1 5 7 6

DONE

2-Digit Subtraction with Regrouping

Subtracting 2-digit numbers, with regrouping

Grade 2 Subtraction Worksheet

Find the difference.

$$\begin{array}{r} 1. \quad 71 \\ - 49 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 2. \quad 66 \\ - 59 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 3. \quad 26 \\ - 19 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 4. \quad 20 \\ - 16 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 5. \quad 96 \\ - 19 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 6. \quad 77 \\ - 18 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 7. \quad 75 \\ - 27 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 8. \quad 56 \\ - 49 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 9. \quad 78 \\ - 49 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 10. \quad 91 \\ - 47 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 11. \quad 65 \\ - 57 \\ \hline \\ \hline \end{array}$$

$$\begin{array}{r} 12. \quad 91 \\ - 84 \\ \hline \\ \hline \end{array}$$

Self Check:

Go tell someone in your home your answers.

1. Was this lesson?

easy

just right

hard

2. Create your own problem, check with someone at home to see if you solved it correctly.
