# VIDEO: WARM AND COOL COLORS

<https://www.youtube.com/watch?v=0jFbFXYeQB0>

# PRACTICE

Grab some markers, crayons, or colored pencils. You'll need red, orange, yellow, green, blue, and purple.

Other colors to include are pinks and teals.

# PRACTICE

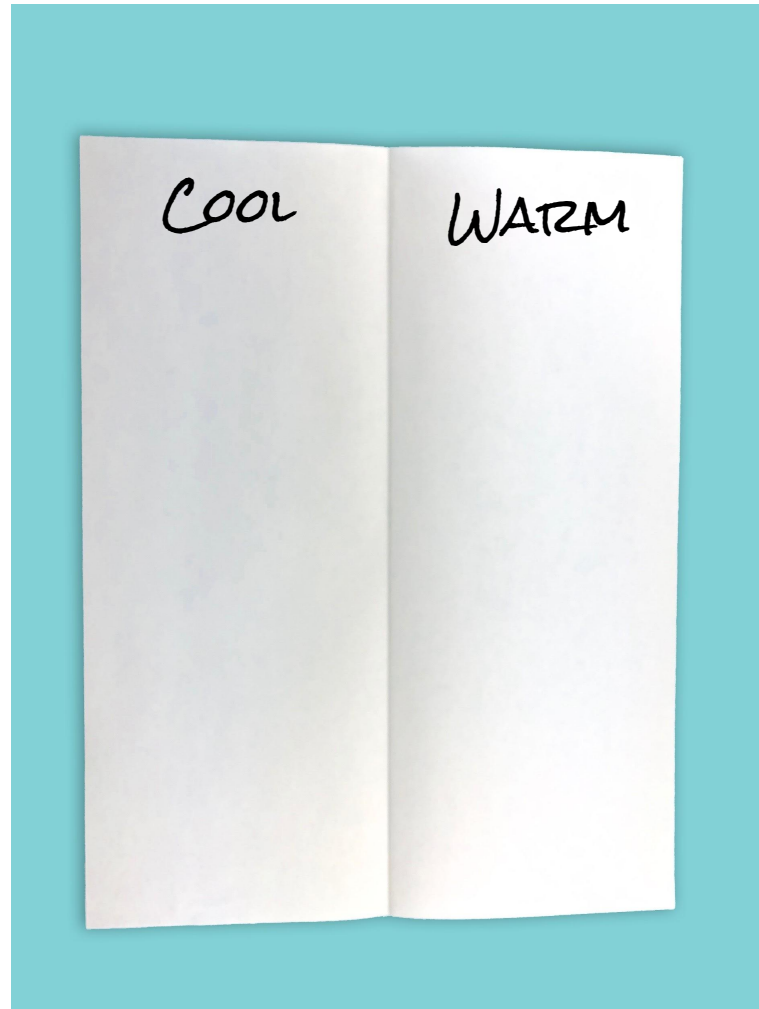

Also grab a blank piece of paper if you have one. Ruled paper is fine as well.

# PRACTICE

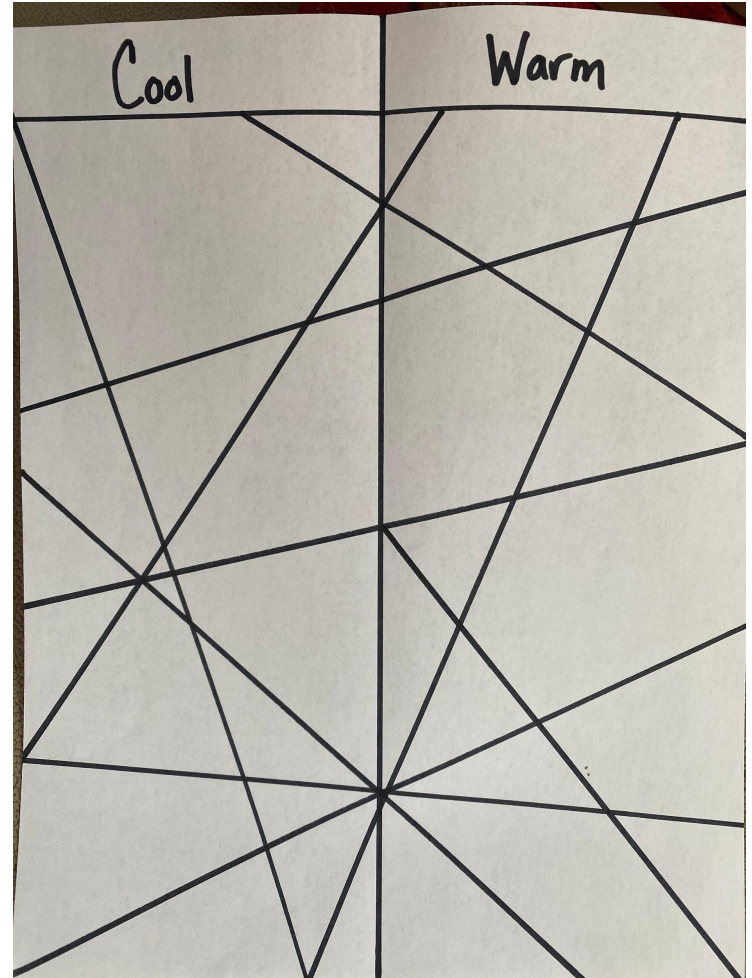

Fold your paper  
in half either  
way. Open it  
back up and draw  
along that fold.

Write cool on the left side  
and warm on the right.

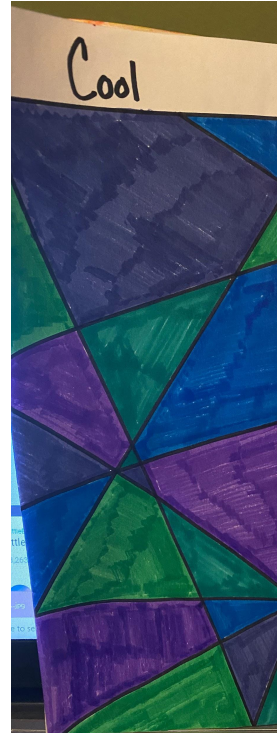

# PRACTICE

Using a ruler or something with a straight edge, you are going to make lines that will create shapes. These type of shapes are called geometric because they have only straight edges, corners, and points.

# PRACTICE

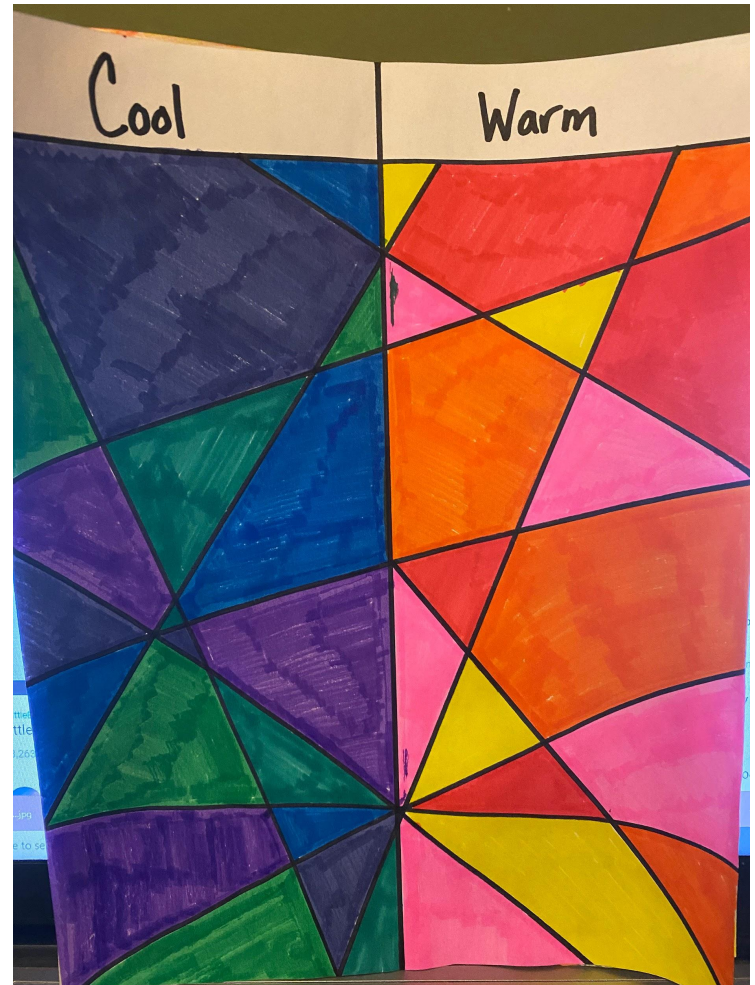

Next you will color the warm side with reds, oranges, yellows, and pinks. Then do the cool side with blues, purples, greens, and teal.

# TA DA!!

Your warm/cool color drawing should look something like this! Please email me your finished product.
