PRACTICE

Grab some markers, crayons, or colored pencils. You'll need red, orange, yellow, green, blue, and purple. Also grab a blank piece of paper if you have one. If not ruled, it's still fine to use.

PRACTICE

Fold your paper in half either way. Open it back up and fold in half the other way.

You should have 4 equal parts like this picture.

PRACTICE

You are going to draw monster in each of the squares. The video below is what we are going to be doing with the exception of watercolor paints. We will be using our markers, crayons or colored pencils.

Start video at 1:35 and end at 2:44. These are just suggestions on monsters to draw. Feel free to create your own.

PRACTICE

Here are my complementary monsters. Now we will color each one only using complementary colors.

Red and Green

Yellow and Purple

Blue and Orange

Color any way you want!

TA DA!!

Your color monsters should look something like this. For my monster that can be colored anyway I wanted, I chose to do warm colors for the monster and cool colors for the background...which we will learn about tomorrow!
