Warm Up: Quickwrite Reflection

After completing your research about your career, do you feel this is a career that would interest you? Make a list of Pros and Cons about this career.

Activity Directions & Practice

You will create a One-Pager about your chosen career. A One-Pager is a creative response to your learning experience. It allows you to respond imaginatively while being brief and concise in making connections between words and images. We think about what we read and learn differently when we are asked to do something with it, and we learn best when we create our own ideas. Your personal experience should be evident to the audience that views your One-Pager.

Follow the guidelines on the checklist on the next slide for what your One-Pager should include.

- Title** the One-Pager appropriately to reflect the content.
