7th Grade AVID Homeroom
Lesson: April 23, 2020

Weekly Objective/Learning Target:

I can research and make an educated guess about my future college and career choices.

Daily Essential Question:

How will the surrounding community influence my career or technical school choice?

This week we will focus on technical and career schools

Use this [link](#) to choose a career or technical school to research this week. They are sorted by those with and those without virtual tours. Remember, you are researching the same school all week.

When you go to the site, if a box pops up requesting your name and email, please click the “X” in the top right corner to exit that screen. You DO NOT NEED to enter your information to take the virtual tour.

On a piece of paper...

INSERT NAME OF CHOSEN SCHOOL FOR THE WEEK

April 23 Questions

1. Where is this school located? What is the current population of that city?
2. What are some things in the area that you would be interested in going to? (malls, churches, grocery stores, restaurants, etc.)
3. How far is this school from home? Tell the miles and the travel time.
4. Research the crime reports in that city. Would you feel comfortable attending school there, especially if you didn't have a car and had to walk everywhere or take public transportation?
5. What are the transportation options around campus, just in case you don't have a car? How much does it cost?

Do not lose this paper, you will use it for the rest of
