April 22, 2020

## Lesson: Planning

**Objective/Learning Target:**  
How to plan so I do not fail.

# Planning Video

Click on the video to learn about planning

# Planning

The video talked about how important it is to have a plan when you are creating a video. If you don't know what you want to film, you probably won't film the right stuff.

Have you ever tried to put something together without the instructions?

How well did it work out?

For most of us, the instructions or plan are important to completing the task.

We all watched the Kansas City Chiefs win the Super Bowl this year. Do you think that just happened or was there a plan in place?"

# Quickwrite - Pick 2 questions

Think for just a moment and imagine. It is the second semester of your freshman year, one year from now. Make a plan for what you can do right now, in the second semester of eighth grade, to make these things happen for you ?

What kind of grades do you have?

What kinds of school activities have you been involved in this year?

What kinds of activities outside of school have you been involved in?

What kinds of friends do you have?

What kind of relationship do you have with your family?

# Summary/Reflection

Keep and consider your answers for the 2 questions you answered as a guide or template for next Monday when we set SMART goals.

For example if I answered the question about my grades with "Most of my grades first semester were As and Bs then second semester after cross country I had a couple of Cs too."

I could consider converting this in to a goal by rewriting it as "I will maintain grades of As and Bs outside of cross country season".

This goal can easily be made into a SMART goal!
