

Music Virtual Learning

Middle School

Music Appreciation/Choir

May 12, 2020

Lesson: May 12th, 2020

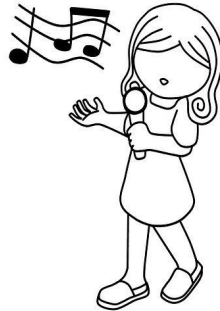

Objective/Learning Target:
Students will perform music.

We have had so much fun writing, playing, reading, creating, and performing music!

Did you enjoy playing around on flat.io yesterday? You can always log back in and add to your score that you've created. Also, you can add up to 15 scores under the free option! I hope that you can continue to enjoy that webpage over the coming months.

You will impress your music teacher with your knowledge of notes if you keep it up!

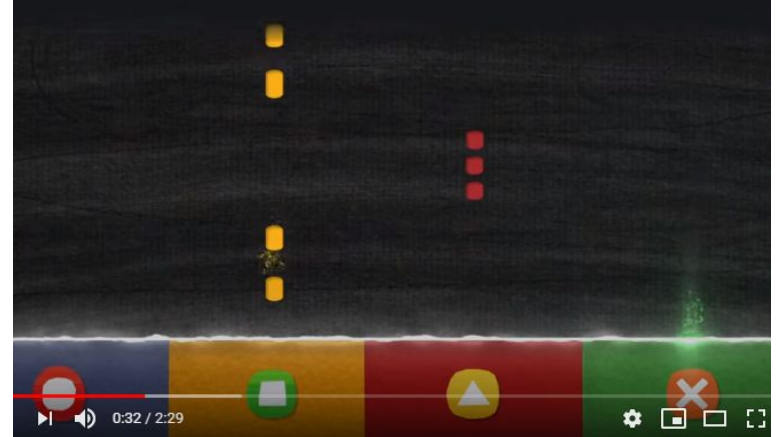

If you haven't found someone to perform your creation for yet, please do!

To continue performing this week, check out these songs that use household instruments, up to four players, and are songs that you may recognize. Grab some family members and have fun! It's kind of like guitar hero!

[Song #1 The Can Can](#)

[Song #2 William Tell Overture](#)

[Song #3 Alla Turka](#)

Here's one where everyone can get up on your feet and dance!

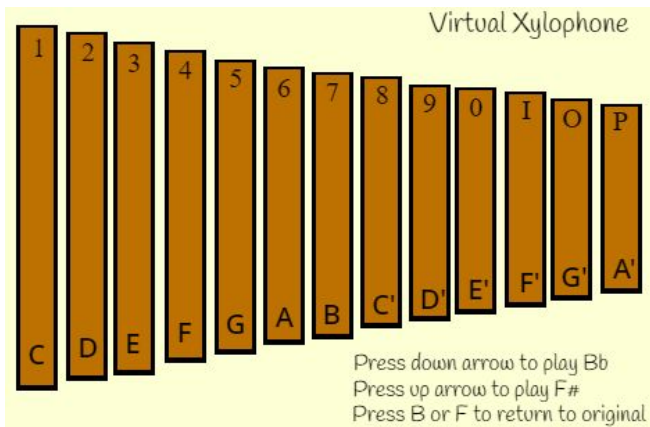

Keep exploring and performing!

Check out this [online xylophone](#). Read the directions on the page for a fun garageband activity, or play along with these videos.

[Xylophone play along #1 La Cucaracha](#)

[Xylophone play along #2 Chopsticks](#)

[Xylophone play #2 Happy Birthday](#)

If you are enjoying these xylophone play alongs, keep exploring. There are tons of videos that will pop up for you to try.

Find someone to perform them for after you've practiced a few times!
