Guitar

May 21, 2020

Guitar

Lesson: May 21, 2020

Objective/Learning Target:

Students will create a soundtrack of their life and be able to discuss how each song relates to their life.

Warm-Up Activity

1. What songs were you able to come up with to include in your soundtrack?
2. What was difficult about the process of picking your songs?
3. What was easy about the process of picking your songs?
4. Is there a theme that seems to be common in your songs?

Creating an Album Cover

Today's lesson is about creating an album cover for the soundtrack of your life.

Things to consider or think about:

- You could use a photo of yourself or of anything else that you think describes your life or the songs in your soundtrack.
- Come up with an album name. Be creative.
- Take some time to look online for some examples.

Album Cover

You can create your album cover in whatever way you choose. You could choose to draw or create your own on paper or you may choose to use a program like Google Slides to create an album cover.

If you want to go further maybe create a “back of the album” page where your songs are listed and come up with designs for that side as well.

Be creative!

What's Next?

In the final lesson you'll be writing a reflection about your soundtrack and what you were thinking as you chose each song.
