

**Music Virtual Learning**

# **Guitar**

**May 22, 2020**

## Guitar

Lesson: May 22, 2020

### **Objective/Learning Target:**

**Students will create a soundtrack of their life and be able to discuss how each song relates to their life.**

## Warm-Up Activity

1. Why did you pick the image for the album cover that you picked?
2. Is there a common theme that runs between the songs you chose for your album and album cover?
3. Why did you choose the name for your album that you chose?

# Album Reflection

Today you're going to write a reflection about your album. It should be at least 3 paragraphs and include the following:

1. An introduction explaining the overall theme and general information of your album such as the title and maybe the thought process you used to come up with the songs.
2. You should write about your album cover and explain its significance.
3. Pick at least 3 songs from your album to write about and explain how they relate to you or important events in your life.
4. A conclusion wrapping it all up and talking about your thoughts on this assignment. What did you think of it? Was it hard? Easy? Did you learn anything about yourself or others?

## Conclusion

Now that you've finished your album maybe find a way to make a playlist on something like YouTube, Spotify, Pandora, etc if you are able to and send it to your teacher or some family members so others can hear!

Find a friend that did this assignment as well and listen to and talk about each others albums.
