Investigating World Cultures Day 2

April 15, 2020

8th Grade Technology Applications
Lesson: April 15, 2020

Objective/Learning Target:
I can use my research to create a poster and postcard of my country.

Getting Started:

This is day 2 of our project. Take out the research that you did yesterday.

Practice:

The first thing we are going to make is a poster for your country.

Use google docs to create your poster.

Practice:

Your poster should be a travel poster.

It should highlight places that a tourist might visit when going to that country.

Include pictures and words to make your poster.

Make sure you can tell what every picture is showing.

Practice:

The next thing we are going to do is create a postcard.

This can be done on google docs or by hand on a piece of paper.

Practice:

Your letter should try and persuade a family member to visit the country.

Make sure to put a picture of something to do on the front side of the postcard.

Additional Practice:

Present the poster and postcard to a family member. See if you can persuade them to visit that country.

Self-Assessment:

Create a Rubric that could be used to assess this assignment.

Use the rubric to check to see if you completed everything.
