

Addendum No.1

Issued: March 25, 2021

RFP Name: Athletic Trainer Services RFP

RFP# 2021-ATS-001

1. 2.3.1 ~ Performing physicals for student athletes as necessary: In our current agreement, we actually address 2.3.7 as assisting with pre-participation physicals. There has been an expectation during the current contract that CTMC was actually responsible for providing and scheduling all medical providers for these services. However, according to the updated recommendations of our medical community, we will no longer be able to provide this service as requested in 2.3.1. If ISD is interested in taking on sole recruitment responsibilities for these physicals, CTMC would be able to continue to provide Athletic Trainers assistance with these events. **Did we interpret this standard correctly as to what you are looking to have in the contract?**

Answer: We expect the athletic trainer partner will assist ISD in making sure physicals are performed with our students.

2. 3.1.3 ~ Team of Professionals: Our proposal will be based on the three current ATC's that we provide to the district. Based on current contract section 1.4, verbiage around employment of athletic trainers is already addressed without specific names of staff. Would you still require this information?

Answer: No we won't need that info since we are familiar with your ATC's.
