

Addendum No.1

Issued: April 18, 2023

RFP Name: District Custodial and Operational Supplies

RFP# 2023-PUR-006

Questions and Answers (in red):

1. Item B-01 – It's under concentrated dispenser chemicals and unit. If the product I'm showing as a sub needs it's own dispenser, is that acceptable? **Yes**
2. Item H-02 – neither "Sub Allowed" nor "Sample required" have a yes or no. Is that an item you'd look at subs? **Yes**
3. Item O-03 – this item is listed as being open to sub and a sample is required. What if I have a product that can be the cartridge AND dispenser. Would that be accepted for consideration? **Yes**
4. Item AB-01 – You are open to subs on the floor extractor. What is the best way to get a demo going for the Co Op to review? **Yes**
5. All of the AT items – I have a manufacturer who can match every single spec, except they're not Gator brand. Will you accept samples and pricing? **Yes**
6. All of the AV items – items 1-5 say they're not open to subs or samples. If those lines can get opened up for consideration, I can get better pricing on the whole category. Is that something the Co Op would consider? **Yes**
7. All AX, AY, and AZ items – Can I submit two prices? One for districts who receive full truckload orders and another for cases being delivered on our company box trucks. **Yes**
8. All BE items – The box stating that subs are accepted isn't marked. Does that mean they're open to bid with any manufacturer? **Yes**

9. The sample meeting on Friday 4/14, will each distributor have a specific time on that day? Or do we show up and sign in and we present in order? **In the past we have given them about 15- 30 minutes and they go in the order they sign in.**
10. Will you only take samples if this list says a sub is allowed and sample required? Will you take a sub if there isn't one allowed? **NA**

Also, included on the next pages are the **Substitutions Approval/Rejection**.
