RFP: Graduation Caps and Gowns

Questions

Do we make our own pricing page to include in the RFP?

I would ask that you do make your pricing page and include within the RFP.

Do you have specifications on material for caps/gowns? Any certain color for samples?

I am not picky on colors. The group chosen will work closely with building administration to select color schemes.

You can go to each building and look at their web page for colors if you would like.
