1. So many of the items on this bid are private label products only available to one vendor (mostly Hillyard, from my quick overview). Substitutions are not allowed for the items. Why would those items be put on a bid?

While Hillyard is a manufacturer and distributor, they are not a closed brand. There are other distributors that carry their products and will be able to bid on these items.

2. Can we get the tabulations/results from the current award for these items?

Yes, <http://sites.isdschools.org/purchasing/useruploads/bids-and-rfps/Custodial%20&%20Ops%20Supply%20-%20Bids%20from%20Vendors.pdf>

3. On the equipment listed, i.e. vacuums, etc. do you really need a sample? Can we supply literature for you to review?

Providing the literature is fine as long as it is adequate to verify that it is equivalent.

4. Is there one delivery location or multiple locations?

Yes, there will be multiple district locations, but one delivery location per district.

5. The Personal Protection Equipment (Gloves) section only. Can you advise on the following? This section does not speak of substitutions.... Do we have to supply samples with the bid?

Yes.

6. Since this is being shipped to a warehouse, can we assume that the warehouse will fulfill to the rest of the schools?

The Warehouse is where the Vendor Fair will be located, but the each district will have one ship to location.

7. Are you still expecting a sample where it says YES to “sample required?”

The district requesting the item wanted to ensure the listed item was the correct product, in the correct size etc.

8. For the vendor fair, I just wanted to make sure I planned accordingly. Will the vendors be able to set up a booth to display our products? Also, how long do you anticipate the vendor fair lasting

No, we will not have room for vendors to have an individual table. The tables will be grouped by product samples. We are not sure, since it depends on how many samples are provided.

9. Can you provide us with the award pricing and winning vendors for each of the liners listed in the bid?

See number 2 for Answer,

10. Is this bid going to be awarded by line item or by group?

By line Item.

11. Regarding your request for samples on the liners, it's difficult to send samples if we do not know what thickness you are requesting. For example, what thickness are you currently using for Item No. I-016: the 43x47 liner?

For example 43x47, Includes package weight is 12.8. The additional liners will be based on weight, please see answer on question number 14.

12. Since not all the liners list all information, can you provide us with the color and thickness currently being purchased for each liner?

White or Clear whichever is the better price. We are going to list weight in question number 14.

13. Can you postpone the submission date for samples until we are given all the information?

No, we have the Vendor Fair on Monday for all samples.

14. Can you provide us with the case weight (lbs. per case) currently being purchased for each of the liners?

15. Regarding the delivery information listed in the bid for Delivery: 2.2: that the majority of products will be ordered up front for one time delivery: can you provide us with the following information: How many delivery locations are there?

20 Districts are Board Members the list is in Appendix B of the RFP, but other districts can order off the bid.

16. Based on previous ordering history, do the schools also place orders for the liners throughout the year also? If they do, can you tell us about how often orders are placed and what would be an approximate case order?

Most districts place their orders for liners once a year.
