- 2.1.2. Buy American- All commodities and products must be of domestic origin to the maximum extent practicable, as required by 7CFR Part 210.21 (d).

"Domestic commodity or product" means an agricultural commodity that is produced in the United States and a food product that is processed in the United States substantially using agricultural commodities that are produced in the United

Nutrition Services Dish Machine & Cleaning Supplies

States. (Substantially means over 51% from American products. Therefore, over 51% of the final processed product, by weight or volume, must consist of agricultural commodities that were grown domestically. Thus, for foods that are unprocessed, agricultural commodities must be domestic, and for foods that are processed, they must be processed domestically using domestic agricultural food components that are comprised of over 51% domestically grown items, by weight or volume.)

Limited Exceptions:

Exceptions to the Buy American provision are very limited; however, an alternative or exception may be approved upon request. To be considered for the alternative or exception, the request must be submitted in writing, by the vendor, for prior approval by the district, in advance of delivery.

Exceptions include:

1. The product is not produced or manufactured in the U.S in sufficient and reasonable available quantities of a satisfactory quality; or
2. Competitive bids reveal the costs of a U.S. product are significantly higher than the non-domestic product.

Limited exceptions to the Buy American Provision allow for the purchase of products not meeting the “domestic” standard. Before utilizing an exception, alternatives must be considered:

1. Are there other domestic sources for this product?
2. Is there a domestic product that could be easily substituted, if the non-domestic product is less expensive?
3. Am I soliciting bids for this product at the best time of year? If I contracted earlier or later in the season, would prices and/or availability change?

To be considered for the alternative or exception, the request must be submitted in writing to a designated official, in advance of delivery. The request must include the:

1. Alternative substitute (s) that are domestic and meet the required specifications:
 - a. Price of the domestic food alternative substitute (s); and
 - b. Availability of the domestic alternative substitute (s) in relation to the quantity ordered.
2. Reason for exception: limited/lack of availability or price (include price):
 - a. Price of the domestic food product; and
 - b. Price of the non-domestic product that meets the required specification of the domestic product.

2.3. Description of items requested:

- 2.3.1. Requirement and Response section is provided in Appendix E.

The district will monitor any chronic deterioration in the order delivery schedule and act upon the problem. The district will exercise reasonable judgment when placing small orders and will make every attempt to place correct orders each time.
 - 3.3.17. The district defines a "proprietary item" as an item the district expects the supplier to purchase and stock. A "special order item" is an item requested for a one time purchase. The supplier will purchase the special order product and ship with the next scheduled delivery. Whenever possible the district will use a product already stocked by the supplier, but reserves the right to request the supplier add proprietary items to stock. The supplier agrees to do so at the discretion of the district. Instructions for Certification

1. By signing and submitting this form, the prospective primary participant is providing the certification set out on the reverse side in accordance with these instructions.
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out on this form. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
4. The prospective primary participant shall provide immediate written notice to the department or agency to whom this proposal is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
6. The prospective primary participant agrees by submitting this form that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
7. The prospective primary participant further agrees by submitting this form that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that is not debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List.
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
