

Chemical addenda

Q-will the district accept a total cost proposal that does not list case cost of products as requested on Appendix D?

A-Yes as long as a per unit cost can be derived. Cost per unit meaning, cost per case, bottle, pouch, ounce, etc. to enable a cost comparison between vendors.

Q- Do we need to supply chemical dispensers? Or will we be using what is already on the wall?

A-The winning bidder will supply their own dispensers.
