

The cure for blood cancer looks exactly like you.

Join the Be The Match Registry®.

Marrow donors in your community are urgently needed to save the lives of patients with diseases like leukemia, lymphoma or sickle cell anemia. Patients are most likely to match someone who shares their ethnic background.

December 2014, Justice Moyer was diagnosed with anaplastic large cell lymphoma. Justice went in remission, May 2015, after being in a trial of receiving strong chemo for 5 months.

Unfortunately, September 2015, Justice got really sick. The cancer had returned. This time, Justice's oncologists informed us, she will need a transplant.

We have faith that her match is out there and Justice will fight through the transplant.

We are hoping the public gets involved in this life saving effort, of registering to be a marrow donor.

There are many children & adults waiting to have their bone marrow transplants. We are hoping this marrow drive will help find their miracle match.

Our hope is to help them!
